Gifts and donations will be accepted by the Archives from any source, whether affiliated with the University of Saint Francis, St. Joseph Hospital, Lutheran College of Health Professions, Lutheran Hospital or others. However, some gifts, although undoubtedly valuable, may not fit within the scope of the Archives collection or may duplicate items already held. In these cases, USF reserves the right to refuse or to dispose of these contributions. Appraisals cannot be made for donated materials. According to the Tax Reform Act of 1984, a donor may not act as a qualified appraiser. A gift-in-kind form should be filled out or a receipt for items received can be given, but no cost will be assessed.
