Lee and Jim Vann Library

To ensure the security of the collections and equipment, the library is always staffed during the hours it is open. However, there are times when access may be required during hours when the library is normally closed. For some specific individuals or groups demonstrating a legitimate need, special arrangements can be made for the library to be unlocked by Security. Authorization for a key is granted only under very exceptional circumstances and requires the approval of both the Director of Library Services and the Director of Operations.
